(1) The Supplemental Statements of Operations provided in this supplemental information package present funds from operations, net operating income, EBITDA, adjusted funds from operations and same store net operating income, which are standard REIT industry financial measures that are not calculated in accordance with generally accepted accounting principles. Please see footnote (i) for a definition of these supplemental performance measures. Please see the Supplemental Statements of Operations Reconciliation for a reconciliation of certain captions in the Supplemental Statements of Operations reported in this supplemental information package to the GAAP Statements of Operations as reported in the Company's filings with the Securities and Exchange Commission on Form 10-Q.

FORWARD-LOOKING STATEMENTS

This supplemental information may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934. We intend for such statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on certain assumptions and describe future plans, strategies and expectations of the Company, and are generally identifiable by use of the words "believe," "expect," "intend," "plan," "anticipate," "estimate," "project," "seek," "target," "potential," "focus," "may," "should" or similar words. Although we believe the expectations reflected in forward-looking statements are based upon reasonable assumptions, we can give no assurance that our expectations will be attained or that results will not materially differ. Factors which could have a materially adverse effect on our operations and future prospects include, but are not limited to: changes in national, international, regional and local economic conditions generally and real estate markets specifically; changes in legislation/regulation (including changes to laws governing the taxation of real estate investment trusts) and actions of regulatory authorities; our ability to qualify and maintain our status as a real estate investment trust; the availability and attractiveness of financing (including both public and private capital) to us and to our potential counterparties; the availability and attractiveness of terms of additional debt repurchases; interest rates; our credit agency ratings; our ability to comply with applicable financial covenants; competition; changes in supply and demand for industrial properties (including land) in the Company's current and potential market areas; difficulties in identifying and consummating acquisitions and dispositions; our ability to manage the integration of properties we acquire; environmental liabilities; delays in development or lease-up schedules; tenant creditworthiness; higher-than-expected costs; changes in asset valuations and related impairment charges; changes in general accounting principles, policies and guidelines applicable to real estate investment trusts; and those additional factors described under the heading "Risk Factors" and elsewhere in the Company's annual report on Form 10-K for the year ended December 31, 2014 and in the Company's subsequent Exchange Act reports. We caution you not to place undue reliance on forward-looking statements, which reflect our outlook only and speak only as of the date of this supplemental information or the dates indicated in the statements. We assume no obligation to update or supplement forward-looking statements. For further information on these and other factors that could impact the Company and the statements contained herein, reference should be made to the Company's filings with the Securities and Exchange Commission.

Consolidated Secured Debt Ratio	≤ 40.0%	16.6%
Property Operating Income Ratio on Unencumbered Assets	≥ 1.75	4.58

⁽¹⁾ Reflects the covenant calculations under all Supplemental Indentures except Supplemental Indenture No. 11, which relates to the 5.95% Notes due May 2017. The covenants reflected above are more restrictive than those set forth in Supplemental Indenture No. 11.

⁽²⁾ On March 10, 2015, the Unsecured Credit Facility was amended and restated. The above covenants calculations are based on the amended terms which include a decrease in the cap rate from 7.5% to 7.0% used to value the asset base of the Company for the leverage ratio covenants and an elimination of the Minimum Market Value Net Worth covenant. On April 20, 2015, the Unsecured Term Loan was also restated and amended. Changes to the covenant calculations for the Unsecured Term Loan conform to the amended covenants under the Unsecured Credit Facility and are calculated above based on the amended terms. As a result, covenant calculations are the same under both agreements.

⁽¹⁾ The 923,520 square feet of industrial developable GLA is underwritten using 70.9 acres of usable land area. The 70.9 acres of usable land area includes the 24 acres of usable land area included herein in addition to 46.9 acres of usable land area the Company already owns and is encumbered with a ground lease through 2028. The Company is currently under agreement with the tenant to amend the ground lease, shrink the area encumbered by it and reconfigure the land to accommodate the industrial developable GLA of 923,520 square feet.

C

- (a) Included in land and deferred leasing intangibles, net, is land purchased in 2008 for a purchase price of \$63,178 that is leased under ground lease arrangements.
- (b) Detail for properties held for sale:

	2015		2014		2013
Number of Properties	 1		-		-
Square Feet (in Millions)	0.2		-		-
Accumulated Depreciation & Amortization	\$ 796	\$	-	\$	-

Manala 04

(c) During the three months ended March 31, 2015, the 2003 Net Lease Joint Venture sold its remaining industrial property comprising approximately 0.8 million square feet of GLA. We held a 15% equity interest in and provided property management services to the 2003 Net Lease Joint Venture. As of March 31, 2015, the 2007 Europe Joint Venture did not own any properties. We continue to hold our 10% equity interest in the 2007 Europe Joint Venture.

(d) Prepaid Expenses and Other Assets, Net as of March 31, 2015, are comprised as follows:

Furniture, Fixtures, Leasehold Improvements and Equipment, Net	\$ 1,184
Prepaid Real Estate Taxes	3,309
Earnest Money, Escrow and Other Deposits	4,267
Leasing Commissions FAS 141, Net	5,178
Leasing Commissions, Net and Lease Inducements, Net	46,855
Other	2,206
Prepaid Expenses and Other Assets, Net	\$ 62,999

- (e) Mortgage Loans Payable, Net consists of 42 first mortgage loans totaling \$596,998, which have interest rates ranging from 4.03% to 8.26%, maturities ranging between February 2016 through September 2022 and are collateralized by 176 properties.
- (f) First Industrial has received ratings from three rating agencies with respect to its senior unsecured notes. The ratings are as follows:

Fitch BBBMoody's Baa3
Standard & Poor's BBB-

- (9) Noncontrolling Interest represents operating partnership units owned by unit holders other than First Industrial Realty Trust, Inc.
- (h) Interest expense is reflected net of interest capitalized with respect to properties under development.

	Three Months Ended March 31, 2015		Three Months Ended March 31, 2014	
Capitalized Interest	\$	459	\$	380

(i) Investors in, and analysts following, the real estate industry utilize funds from operations ("FFO"), net operating income ("NOI"), EBITDA and adjusted funds from operations ("AFFO"), variously defined below, as supplemental performance measures. While the Company believes net income available to First Industrial Realty Trust, Inc.'s common stockholders and participating securities, as defined by GAAP, is the most appropriate measure, it considers FFO, NOI, EBITDA and AFFO, given their wide use by, and relevance to investors and analysts, appropriate supplemental performance measures. FFO, reflecting the assumption that real estate asset values rise or fall with market conditions, principally adjusts for the effects of GAAP depreciation and amortization of real estate assets. NOI provides a measure of rental operations, and does not factor in depreciation and amortization and non-property specific expenses such as general and administrative expenses. EBITDA provides a tool to further evaluate the ability to incur and service debt and to fund dividends and other cash needs. AFFO provides a tool to further evaluate the ability to fund dividends. In addition, FFO, NOI, EBITDA and AFFO are commonly used in various ratios, pricing multiples/yields and returns and valuation calculations used to measure financial position, performance and value.

As used herein, the Company calculates FFO to be equal to net income available to First Industrial Realty Trust, Inc.'s common stockholders and participating securities, plus depreciation and other amortization of real estate, minus non-NAREIT compliant gain.

NOI is defined as revenues of the Company, minus property expenses such as real estate taxes, repairs and maintenance, property management, utilities, insurance and other expenses. NOI includes NOI from discontinued operations.

EBITDA is defined as NOI plus the equity in FFO of the Company's joint ventures, which are accounted for under the equity method of accounting, minus general and administrative expenses and acquisition costs. EBITDA includes EBITDA from discontinued operations.

AFFO is defined as EBITDA minus GAAP interest expense, minus capitalized interest and overhead, plus amortization of debt discounts / (premiums) and hedge costs, minus preferred stock dividends, minus straight-line rental income, amortization of above (below) market leases and lease inducements, minus provision for income taxes or plus benefit for income taxes, plus restricted stock amortization, minus non-incremental capital expenditures. Non-incremental capital expenditures are building improvements and leasing costs required to maintain current revenues. See Note (l).

FFO, NOI, EBITDA and AFFO do not represent cash generated from operating activities in accordance with GAAP and are not necessarily indicative of cash available to fund cash needs, including the repayment of principal on debt and payment of dividends and distributions. FFO, NOI, EBITDA and AFFO should not be considered as substitutes for net income available to common stockholders and participating securities (calculated in accordance with GAAP) as a measure of results of operations or cash flows (calculated in accordance with GAAP) as a measure of liquidity. FFO, NOI, EBITDA and AFFO as currently calculated by the Company may not be comparable to similarly titled, but variously calculated, measures of other REITs.

In addition, the Company considers cash-basis same store NOI ("SS NOI") to be a useful supplemental measure of its operating performance. Same store properties, for the period beginning January 1, 2015, include all properties owned prior to January 1, 2014 and held as an in-service property through the end of the current reporting period, and developments and redevelopments that were placed in service or were substantially completed for 12 months prior to January 1, 2014 (the "Same Store Pool"). The Company defines SS NOI as NOI, less NOI of properties not in the Same Store Pool, less the impact of straight-line rent, the amortization of lease inducements and the amortization of above/below market rent. For the quarters ended March 31, 2014, NOI was \$60,111 and \$55,477, respectively; NOI of properties not in the Same Store Pool was \$1,683 and \$863, respectively; the impact of straight-line rent, the amortization of lease inducements and the amortization of above/below market rent in calculating SS NOI secuses the Company believes it provides a better measure of actual cash basis rental growth for a year-over-year comparison. In addition, the Company believes that SS NOI helps the investing public compare the operating performance of a company's real estate as compared to other companies. While SS NOI is a relevant and widely used measure of operating performance of real estate investment trusts, it does not represent cash flow from operations or net income as defined by GAAP and should not be considered as an alternative to those measures in evaluating our liquidity or operating performance. SS NOI also does not reflect general and administrative expenses, interest expenses, depreciation and amortization costs, capital expenditures and leasing costs, or trends in development and construction activities that could materially impact our results from operations. Further, the Company's computation of SS NOI may not be comparable to that of other real estate companies, as they may use different methodologies for cal

The SS NOI percentage changes for the twelve months 2015, 2014 and 2013 are as follows:

		First Quarter	Second Quarter	Third Quarter	Fourth Quarter	YTD (3)
2015 Cash Basis SS NOI	(1)	6.0%	N/A	N/A	N/A	6.0%
2015 Cash SS NOI w/o Termination Fees	(1)	6.2%	N/A	N/A	N/A	6.2%
2014 Cash Basis SS NOI	(2)	2.3%	2.7%	5.7%	5.8%	4.4%
2014 Cash SS NOI w/o Termination Fees	(2)	2.3%	2.4%	4.9%	6.2%	4.2%
2013 Cash Basis SS NOI		2.3%	0.8%	2.5%	(1.1%)	1.4%
2013 Cash SS NOI w/o Termination Fees		2.4%	1.9%	2.1%	3.5%	2.7%

- (1) Same Store NOI for the three months ended March 31, 2014 excludes \$389 in a one-time 2014 restoration fee. Including the one-time restoration fee, Q1 and YTD Cash SS NOI would have been 5.3% and Cash SS NOI w/o Termination Fees would have been 5.4%.
- (2) Same Store NOI for the year ended December 31, 2014 excludes \$2,638 in a one-time 2014 restoration fee. Including the one-time restoration fee, YTD Cash SS NOI would have been 5.6% and Cash SS NOI w/o Termination Fees would have been 5.4%.
- (3) Year to date SS NOI is calculated using the same store population as of the latest balance sheet date.
- j) NAREIT Compliant Economic Gain (Loss) results from the sale of properties not previously depreciated.

Non-NAREIT Compliant Gain (Loss) results from the sale of previously depreciated properties.

- (k) The Company has a seven-year, \$200,000 unsecured loan (the "Unsecured Term Loan") with a syndicate of financial institutions. The Unsecured Term Loan requires interest only payments and bears interest at a variable rate based on LIBOR, as defined in the loan agreement, plus a specified spread based on our leverage ratio or credit ratings. The Company also entered into interest rate protection agreements, with an aggregate notional value of \$200,000, to effectively convert the Unsecured Term Loan's LIBOR rate to a fixed rate.
- (I) Non-incremental Capital Expenditures refers to building improvements and leasing costs required to maintain current revenues plus tenant improvements amortized back to the tenant over the lease term. Excluded are first generation leasing costs, capital expenditures underwritten at acquisition and development/redevelopment costs. The costs below reflect amounts recorded during the period.

	March 31, 2015		March 31, 2014	
Building Improvements One-Time Restoration Fee Leasing Costs	\$	921 - 6.241	\$	1,568 (389) 6,190
	\$	7,162	\$	7,369

A one-time 2014 restoration fee is excluded from the calculation of AFFO. The adjustment also reduced building improvements by \$389 in Q1 2014.

(m) GAAP requires unvested equity based compensation awards that have nonforfeitable rights to dividends or dividend equivalents (restricted stock) ("participating securities") to be included in the two class method of the computation of EPS. Under the two class method, participating security holders are allocated income, in proportion to total weighted average shares outstanding, based upon the greater of net income (after reduction for preferred dividends and redemption of preferred stock) or common dividends declared. The Company conforms the calculation of FPO and AFFO with the calculation of EPS during periods in which common dividends are declared. The impact to basic and diluted FFO, AFFO and Net Income Available to First Industrial Realty Trust, Inc.'s Common Stockholders for the three months ended March 31, 2015 and 2014 is as follows:

	Three Months Ended March 31, 2015		Three Months Ended March 31, 2014	
Net Income Available to First Industrial Realty Trust, Inc.'s Common	•	0.070	•	0.400
Stockholders and Participating Securities Less: Net Income Allocable to Participating Securities	\$	2,373 (41)	\$	2,482 (32)
Net Income Available to First Industrial Realty Trust, Inc.'s Common Stockholders	\$	2,332	\$	2,450
Weighted Average Shares - Basic		110,310		109,676
Weighted Average Shares - Diluted		110,675		110,215
Earnings Per Share - Basic and Diluted	\$	0.02	\$	0.02
Funds From Operations - FFO (NAREIT)	\$	22,626	\$	27,574
Less: Funds From Operations Allocable to Participating Securities		(63)		(73)
Funds From Operations - FFO (NAREIT) After Income Allocable to Participating Securities	\$	22,563	\$	27,501
Weighted Average Shares/Units - Basic		114,681		114,245
Weighted Average Shares/Units - Diluted		115,046		114,784
Funds From Operations (NAREIT) Per Share - Basic and Diluted	\$	0.20	\$	0.24
Adjusted Funds From Operations - AFFO	\$	29,402	\$	24,491
Less: Adjusted Funds From Operations Allocable to Participating Securities		(82)		(65)
Adjusted Funds From Operations - AFFO After Income Allocable to Participating Securities	\$	29,320	\$	24,426
Weighted Average Shares/Units - Basic		114,681		114,245
Weighted Average Shares/Units - Diluted		115,046		114,784
Adjusted Funds From Operations Per Share - Basic	\$	0.26	\$	0.21
Adjusted Funds From Operations Per Share - Diluted	\$	0.25	\$	0.21
Impact of Participating Securities	\$	0.01	\$	-

- (n) During the three months ended March 31, 2014, the Company redeemed all 50 Depositary Shares of the Series F Preferred Stock and all 25 Depositary Shares of the Series G Preferred Stock. The initial offering costs associated with the issuance of the Series F and Series G Preferred Stock, as well as costs associated with the redemptions, totaled \$1,462 and are reflected as a deduction from net income in determining earnings per share for the three months ended March 31, 2014.
- (o) Properties which are at least 75% occupied at acquisition are placed in-service. Acquired properties less than 75% are placed in-service upon the earlier of reaching 90% occupancy or one year from the acquisition date. Development properties are placed in-service upon the earlier of reaching 90% occupancy or one year from the date construction is completed. Redevelopments (generally projects which require capital expenditures exceeding 25% of the gross cost basis) are placed in-service upon the earlier of reaching 90% occupancy or one year from the completion of renovation construction.

- (P) Effective March 10, 2015, we amended and restated our existing \$625,000 unsecured revolving credit facility (the "Old Unsecured Credit Facility"), extending the maturity thereunder to March 11, 2019 with an option to extend an additional one year at our election, subject to certain restrictions (as amended and restated, the "Unsecured Credit Facility"). The weighted average interest rate at March 31, 2015 is 1,3233%.
- (q) Developable land area represents land acquired for future development or potential land sales. The developable GLA is based on the developable land area and a parcel by parcel estimate of the land to building ratio. Useable land area and developable / expandable GLA are estimated and can change periodically due to changes in the site design, road and storm water requirements, trailer parking, staging areas, type of building, condemnation, etc. Actual build out can be influenced by a number of factors including renegotiations with existing tenants, negotiations with new tenants, and in certain instances, zoning restrictions, assessments of market conditions and physical constraints for development.
- (r) The Company uses the following general criteria to classify buildings by property type. While some properties may have characteristics of more than one property type, the Company determines the most dominating characteristic(s) to categorize a building. Individual properties may be reclassified over time due to changes in building characteristics such as tenant use and office space build out

Property Type	Property Square Feet	Ceiling Height	Office Space
Bulk Warehouse	More than 100,000 sq. ft.	22 ft. or more	5% to 15%
Regional Warehouse	Less than 100,000 sq. ft.	22 ft. or more	5% to 15%
Light Industrial	Less than 100,000 sq. ft.	16 to 21 ft.	5% to 50%
R&D/Flex	Less than 100,000 sq. ft.	Less than 16 ft.	50% or more

- (s) Annualized net rental income per average occupied square foot is based on multiplying the current net rent by twelve and dividing by the average occupied GLA. This is used as a benchmark and does not necessarily reflect increases or decreases in NOI.
- (t) Weighted average expected cap rate of acquisitions and developments placed in service represents the expected stabilized cash yield (first year cash NOI divided by the total expected investment stated as GAAP book value). Weighted average cap rate on sales represents the stabilized cash yield (stabilized cash NOI divided by the total expected stabilized investment). Cap rate at sale represents the actual NOI for the previous twelve months prior to sale divided by the sales price. Straight-line rents are not included in cash NOI.
- (u) The Company considers Net Asset Value ("NAV") to be a useful tool for investors and analysts to estimate the value of common shareholder equity. The assessment of NAV is subjective and involves estimates and assumptions and can be calculated using various methods. The detail shown below is provided to assist analysts and investors in calculating NAV.

	At March 31, 2015	
Quarterly NOI	60,111	
Sales/Acquisitions/Developments Placed in Service Run Rate Adjustment	(135)	(1)
Stabilized Occupancy Adjustment (95% Occupancy)	630	(2)
Stabilized Completed Developments Not in Service Adjustment (100% Occupancy) Adjusted NOI	1,340 61,946 X 4	(3)
Annualized NOI CIP and Associated Land for Developments Under Construction Cash and Cash Equivalents	247,784 46,755 3,557	
Restricted Cash Tenant Accounts Receivable, Net Furniture, Fixtures, Leasehold Improvements and Equipment, Net	1,829 8,176 1,184	
Prepaid Real Estate Taxes Earnest Money, Escrows and Other Deposits Developable Land Inventory	3,309 4,267 77,934	
Total Other Assets Total Liabilities	147,011 1,471,064	
Shares & Units Outstanding	115,093	

- (1) Adjustment reflects the incremental NOI for any acquisitions or developments placed in service during the quarter for the period from the beginning of the quarter to the date acquired or placed in service, net of a deduction for the NOI realized from any properties that were sold during the quarter. See page 19 for developments placed in service and page 20 for sales consummated during the quarter. There were no acquisitions completed during the three months ended March 31, 2015.
- (2) Adjustment reflects the potential NOI impact of leasing the in-service portfolio to 95% occupancy. This will add NOI when occupancy is below 95% and subtract from NOI when occupancy is above 95%. This adjustment excludes the impact of any future acquisitions or sales.
- (3) Adjustment reflects potential additional NOI impact of leasing completed developments not in service to 100% occupancy. See page 19 for a list of the completed developments not in service.
- (v) Southern California includes the markets of Los Angeles, Inland Empire and San Diego.
- (w) In August 2014, the Company entered into three interest rate protection agreements with a notional value of \$220,000 in order to maintain flexibility to pursue an offering of unsecured debt in the future. The three interest rate protection agreements were designated as hedges. During the three months ended March 31, 2015, the Company determined the forecasted offering of unsecured debt was not probable of occurring within the time period stated in the hedge designation memos. Accordingly, the Company reclassified the fair value loss of the interest rate protection agreements of \$12,990 from other comprehensive income to earnings.
